Document all of the above each treatment:
 S/B=Sharp or Blunt needle, Ga=Needle Gauge, QB=Blood flow rate. In the comments section, please give details of stick (i.e., direction of needle, ease of stick, outcome and patient reaction. 1 page for each needle site. A drawn or photographed picture of the patient's access is to accompany this log. It should have needle sites drawn on it and the direction of flow. Revise to show new needle sites.
